Contents Volume 66, 2002

Research Papers

Groundwater control and stability in an excavation in Magnesian Limestone near Sunderland, NE England
G.M. Davis and P. Horswill 1

Geological and hydraulic characterisation of the excavation disturbed zone in the Opalinus Clay of the Mont Terri Rock Laboratory
P. Bossart, P.M. Meier, A. Moeri, T. Trick and J.-C. Mayor 19

A fuzzy triangular chart to predict the uniaxial compressive strength of the Ankara agglomerates from their petrographic composition
C. Gokceoglu 39

Roads over lava tubes in Cheju Island, South Korea
A.C. Waltham and H.D. Park 53

Landslide fluidization process by flume experiments
Y. Okura, H. Kitahara, H. Ochiai, T. Sammori and A. Kawanami 65

Measurement of rock fracture toughness under modes I and II and mixed-mode conditions by using disc-type specimens
S.-H. Chang, C.-I. Lee and S. Jeon 79

Sampling bias of discontinuity orientation caused by linear sampling technique
H.J. Park and T.R. West 99

Weathering mechanisms and their effects on the landsliding of ignimbrite subject to vapor-phase crystallization in the Shirakawa pyroclastic flow, northern Japan
M. Chigira, M. Nakamoto and E. Nakata 111

Determination of the hydraulic conductivity components using a three-dimensional fracture network model in volcanic rock
B.Y. Park, K.S. Kim, S. Kwon, C. Kim, D.S. Bae, L.J. Hartley and H.K. Lee 127

Three destructive inland earthquakes in the central-western Yamaguchi Prefecture, southwest Japan and accompanied stress changes to their adjacent faults
Y. Kanaori, S. Toda and A. Koizumi 143

Opinion Paper

Epistematic and aleatory uncertainty: a new shtick for probabilistic seismic hazard analysis
E.L. Krinitzsky 157

Discussion

Discussion
W.J. Paul (P.E.) 161

The George A. Kiersch Series on Principles of Engineering Geology
The Bhuj, India, earthquake: lessons learned for earthquake safety of dams on alluvium
E.L. Krinitzsky and M.E. Hynes 163

Research Papers
Particle orientation and its influence on the mechanical behaviour of isotropically consolidated reconstituted clay
V. Sivakumar, I.G. Doran and J. Graham 197
Correlation of Schmidt hardness with unconfined compressive strength and Young's modulus in gypsum from Sivas (Turkey)
I. Yılmaz and H. Sendir 211
Particle-size distribution of interlayer shear zone material and its implications in geological processes—a case study in China
Y.X. Xiao, C.F. Lee and S.J. Wang 221
The engineering geology of the Tabarak Abad Dam
G.R. Lashkaripour and M. Ghafoori 233
Subsidence rates in the Po Plain, northern Italy: the relative impact of natural and anthropogenic causation
E. Carminati and G. Martinelli 241
The examination of fracturing process subjected to triaxial compression test in Inada granite
T. Nishiyama, Y. Chen, H. Kusuda, T. Ito, K. Kaneko, H. Kita and T. Sato 257
Engineering geological assessment of the proposed Uruş Dam, Turkey
A. Özsan and M. Akın 271
Geotechnical characterization of carbonate marls for the construction of impermeable dam cores
F. Lamas, C. Irigaray and J. Chacón 283
Assessing debris-flow hazard in a watershed in Taiwan
P.-S. Lin, J.-Y. Lin, J.-C. Hung and M.-D. Yang 295

Discussion
PSHA: is it science?
H. Castaños and C. Lomnitz 315

Book Reviews 319
